PCC History
Educatign and Empowering People for Success

In March 1961, Pitt Community College was chartered and designated by the State Board of Education as an industrial education center. The College began its operation as Pitt Industrial Education Center during the same year. Dr. Lloyd Spaulding served as the first director of the center. The programs developed and expanded, and in 1964, the school was designated a technical institute by the State Board of Education. The name was changed in July, 1964, to Pitt Technical Institute, and it opened in its new facility, the Vernon E. White Building, in September, 1964, with nine curricula and 96 students. Dr. William E. Fulford, Jr., served as the President from 1964 to 1984.

In 1979, the College officially became “Pitt Community College” and began offering college transfer programs. Dr. Charles Russell was named President of Pitt Community College in 1984 and held that position until he retired in 2003. Dr. G. Dennis Massey assumed the role of President in 2003.

Through the first five decades of the College’s history, its enrollment and facilities have continued to grow to meet the needs of local workforce development. The main campus, located in Winterville, now consists of 294 acres and 18 buildings with a total of 537,257 square feet. The Continuing Education Division is housed in the PCC Greenville Center located at 3107 S. Memorial Drive, Greenville. Additional facilities include the Public Safety Training Center located near Bethel, the Intergenerational Center located at 1100 Ward Street in Greenville, and the Bernstein Center located north of Greenville on NC 11. Courses are also taught at many community facilities located throughout Pitt County.

Pitt Community College educates 1 in every 6 adults in Pitt County fulfilling our mission to educate and empower people for success.
