Message from the Dean

Welcome to the Division of Health Sciences at Pitt Community College. The programs offered by our Division help students prepare for employment in the healthcare industry and combine the highest quality instruction with clinical experience in hospitals and other healthcare settings. Each of our programs are designed for students who want to make a difference in the lives of others; have a strong work ethic, ethical ideals, and critical thinking skills; and embrace responsibility and cooperative teamwork.

Pitt Community College is a leader in providing quality healthcare professionals; particularly for Pitt County and eastern North Carolina. We want you to become a part of our tradition. So, if you’re looking for a challenging career where you will receive job satisfaction and security, respect and recognition, reasonable salary and benefits, and an opportunity for life-long learning, explore our possibilities. I think you will find your fit.

Sincerely,
Donna V. Neal, Dean
Health Sciences Division

To apply, students must:
1. Meet application criteria.
2. Complete minimum prerequisite courses.
3. Contact health sciences admissions at 252.493.7473 or hltscadem@email.pittcc.edu to complete a health sciences application.
4. To find application criteria, prerequisite courses, etc., visit: www.pittcc.edu > academics > programs > health sciences > admissions > curriculum sheets

Admission is competitive.

Students admitted to health sciences programs are required to complete a clinical practicum. Clinical facilities may require criminal background checks, drug screenings, credit checks, professional license checks, and/or proof of US citizenship prior to or during participation in the clinical portion of a program. Any expenses associated with these requirements are the responsibility of the student. Pending the outcome, clinical facilities may deny a student the opportunity to complete the clinical portion of a program. A student who is unable to complete the clinical portion of a program will not be able to graduate.

Criminal background checks, drug screenings, credit checks, professional license checks, and/or proof of US citizenship may also be required after graduation by examination boards, state licensing boards, and employing agencies. Pending the outcome, a graduate may be disqualified from examination eligibility, state licensure, and/or employment.

Mission
The Health Sciences Division will provide quality healthcare programs that educate and empower graduates with the knowledge, skills, and behaviors to be competent and professional healthcare providers within their scope of duties.

Vision
The Health Sciences Division is committed to preparing the health professional of the future. Our knowledge, skill, and compassion for others is demonstrated to our students, influencing and preparing them to become the leaders of tomorrow while maintaining the level of quality care the healthcare industry demands.

Values
Commitment to serve our students, the healthcare industry, and the community is the cornerstone of the Health Sciences Division. We strive to attain the highest standards of excellence through assessment, accountability, and continuous improvement. We value the learning experience and the accomplishments that can be achieved through collaboration and service. We value diversity among our students, faculty, staff, and community and celebrate our differences. We value honesty and believe integrity is essential for long-term success. These core values provide the principles and standards for all we do, define our relationships with others, and are reinforced in our students, the healthcare industry, and ourselves.

Health Sciences Admissions
Health Sciences programs have special admissions requirements. These requirements are in addition to those completed for the College. Until you complete the special admission requirements and are accepted into your intended program of study, you will be enrolled as an Associate in General Education (AGE) major.

For the health sciences admissions details, visit: www.pittcc.edu > academics > programs > health sciences > admissions.

Health Sciences admissions policies are not to be regarded as an irrevocable contract between Pitt Community College and students. Pitt Community College reserves the right to change any provisions or requirements at any time. Every effort will be made to minimize the inconvenience such changes create for students.
