Message from the Dean

Welcome to the Arts and Sciences Division at Pitt Community College! Our division offers programs and classes that help students train for a career in biotechnology or transfer to a university. Our university transfer degrees offer seamless pathways into the University of North Carolina System colleges, including our local university partner, East Carolina University.

One innovation that our division is proud of is the Student Success Center. In the SSC, our faculty advisors can help you develop a Student Education Plan outlining all of the courses needed for your degree. In our new Science Building, we feature state-of-the-art classroom and lab space for our Engineering and Science students to experience unique learning environments.

The Arts and Sciences Division is very committed to global education. Our students can become "Scholars of Global Distinction" by taking courses with an international focus, or they can compete for and receive study abroad scholarships. With a wide variety of courses and programs, our division is a stepping stone toward a fulfilling career. We look forward to teaching you!

Sincerely,
Stephanie Rook, Ph.D.
Dean, Arts and Sciences Division

Mission

To educate and empower students in Arts and Sciences programs by focusing on

- successful career preparation
- higher education transfer
- community involvement
- global engagement

This mission will be achieved by . . .

1. ***Student Learning Success***
   Pitt Community College will provide resources and support to cultivate the skills and knowledge needed to achieve academic and professional success.
2. ***Workforce Development and Job Readiness***
   Pitt Community College will create a job ready competitive workforce by working with business and industry to expand current programming.
3. ***Student and Community Engagement***
   Expand educational programming and services to all sectors of our community.
4. ***Strategically Leverage Technology for Success***
   Integrate technology into college operations to support learning and student success.

Student Success Center

The Arts & Sciences Division is home to the Student Success Center (SSC), which is located in the Reddrick Building Room 228. The Success Center is open year-round and is designed to focus on continuing students in the Associate in General Education (AGE) Pre-Health Science and University Transfer (UT) programs.

Walk-in assistance is available and students do not need an appointment to visit the Center, although we encourage students to make an appointment. To schedule an appointment to meet with an advisor in the SSC, simply visit the Center during operating hours or contact the Center via email at *ssc@my.pittcc.edu.*

If you contact us to schedule an appointment, please include the following information:

- Your Student Identification Number
- Your Major
- The Reason For Your Visit
- At Least two Different Options for Appointment Times (Must be During our Operating Hours)

Appointments are not accepted during any registration period. We will assist students during registration periods on a first-come, first-serve basis.
