Graduates of Pitt Community College’s Positron Emission Tomography (PET) Diploma Program meet the educational requirements to take the PET certification examination offered by the Nuclear Medicine Technology Certification Board (NMTCB). The PET certification examination is a national credentialing examination. Pitt Community College’s PET Certificate Program does not include a clinical component. Graduates of the certificate program are not eligible to take the PET certification examination. To contact the NMTCB, click [here](#).

Graduates of the PET Certificate Program do not meet the educational requirements for licensure in any state. Licensure disclosure information in the table below is applicable to graduates of the PET Diploma Program only.

Listed below is the link to each state’s information regarding licensure.
